

Experience easy breathing.

Medicinal oxygen in cans.
goX® – your companion for leisure,
sport, work and travel.

Correct use of the product.

Remove inhalation mask and place it the other way around on the can. Retract withdrawal lever and place the inhalation mask over mouth and nose. Then press the withdrawal lever down with your thumb for 1-2 seconds and breathe in deeply during this time. Inhale at least five times per use. The contents suffice for approximately 40 inhalations (4-litre can) or approximately 60 inhalations (6-litre can).

goX® ver: 1.0 - ENG
